

With a passion for Cloud Computing and Web Development, I embrace new challenges and technologies with an open mind, eager to contribute innovative solutions and stay ahead in the ever-evolving tech landscape.

### Experience:

- Web Development Intern at **Codsoft**:  
Successfully developed a responsive Portfolio Website, also created a dynamic JavaScript calculator and a captivating landing page website.

### Skills:

- Cloud Computing: AWS
- Database management: SQL
- Web Development: HTML, CSS, JAVASCRIPT
- Programming: JAVA, OOPS, DSA

### Projects:

#### 1)Wild-Rydes application deployment:

Successfully deployed Wild Rydes application on AWS. Wild Rydes is an innovative ride-sharing platform that allows users to summon creatures for a distinctive transportation experience. Utilizing AWS services like **Amazon Cognito** for secure authentication, **AWS Lambda** for a serverless backend, and **Amazon DynamoDB** for scalable data storage, the platform ensures efficient and reliable operations. **AWS Amplify** is used to deploy the application and **Rest API gateway** is used to configure endpoints.

#### 2)Portfolio Website:

Created a Portfolio website using HTML, CSS and Javascript.
